Our objective is your success.

The one-stop agency for your businesses.

The Brandenburg Economic Development Board (ZAB) is the State of Brandenburg's central contact point for investors, local companies and technology-orientated start-ups.

The ZAB's service profile includes financial, innovation, technological and foreign trade assistance as well as supporting technology transfer and company networks. ZAB is Brandenburg's energy agency and offers extensive and competent consulting services for enterprises and the public sector.

With the aim of offering comprehensive support for relocation, investments

and start-up projects the ZAB works closely with the Investment Bank of the State of Brandenburg ILB (InvestitionsBank des Landes Brandenburg) and BC Brandenburg Capital GmbH. In this way we can offer our customers detailed consultancy about the funding available from the State of Brandenburg, from the Federal Government and the EU, as well as financing possibilities.

Together with our partners from Brandenburg and Berlin we market Germany's capital city region – the business and research location Berlin-Brandenburg.

Our first class service – resulting from our local and sectoral know-how.

The Regional Centres of the ZAB in the State of Brandenburg offer up-to-date and demand-orientated consultancy for companies on site. At the same time they ensure that all regional stakeholders and decision makers are involved.

The staff at the Brandenburg Economic Development Board have special consultancy know-how in the strongly growing sectors of the future. These are

- Industries with a focus on the automotive, plastics, chemical, paper, metal processing and metalwork, wood processing and optical sectors
- Logistics, aerospace and transport technology
- Media/information and communications technology and the geoinformation sector
- Biotechnology/Life Sciences
- Energy sector and biofuels

All customers and projects are treated individually and confidentially.

A strong impetus for your projects.

We support relocation projects for domestic and foreign companies by

- Giving current financial and sector information
- Offering tailor-made location packages
- Providing customised industrial, commercial and office space
- Advising on investment assistance and financing
- Helping in recruiting specialist staff and with the essential qualification

We support companies based in the State of Brandenburg in

- Company expansions and introducing new technologies
- Cooperating in sector networks and with scientific institutions
- Using energy efficiently
- Tapping national and international markets by organising trade fair participation, business missions and events as well as claiming funds from EU programmes; in international technology transfers and in participating in the 7th Framework Programme for Research

ZAB is partner in the Enterprise Europe Network of the EU.

We advise innovative and technology-orientated start-ups on

- Developing start-up concepts
- Implementing start-up projects
- Applying for funding
- Accessing regional cooperation organisations and networks
- Looking for partners from the areas of research and science
